REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The correction of the sequence is noted but the corrected sequence is just as allowable as the incorrect one. The prior art of record does not teach metallothionein from *Artemia* and, thus, inclusion of that protein is not taught for metal remediation. It is hereby noted that the present claims have been limited to *Artemia* species based on the disclosure of the presently allowed application. However, this limitation will not adversely limit the claim scope in Continuation-in-Part applications where metallothionein proteins from other species are presented for the first time.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
